

THE BLAIRMORE ENTERPRISE

VOL. XVII, No. 17.

THE BLAIRMORE ENTERPRISE,

THURSDAY, APRIL 29, 1926.

FLORAL TRIBUTES TO LATE MRS. GOODWIN

Following is a partial list of the floral tributes to the late Mrs. W. Goodwin, whose remains were laid to rest at Bellevue on Thursday afternoon beside those of her son Andrew, who predeceased her by just four weeks:

Husband and Luther, George, Clara and family; Mary and family; John, Clara and Ben; Watt, Lila and family; George and Bernice; Mr. and Mrs. J. Beal and family; Reg. and Annie; Robert Levitt (Calgary); Mr. and Mrs. J. Radford, Mrs. Bohmer, Kerr Brothers, Mr. and Mrs. J. D. McDonald, Mr. and Mrs. S. Berry, Johnson & Cousens, Mr. and Mrs. J. A. Barbour, Mr. and Mrs. F. Beard (Lethbridge), Mr. and Mrs. James Eddy (Burns), Mr. and Mrs. James Milvain (Burns), United Church Board and Ladies' Aid, Mr. and Mrs. Jack Brooks, Mr. and Mrs. Harry Blake, Mr. and Mrs. Charles Emmerson and family, Mr. and Mrs. A. Hallworth and family, Mr. and Mrs. John Shevels and family, Mr. and Mrs. R. Dicken and family (Blairmore), Bay of Hope Rehekah Lodge, Fred, Winnie and A. L. Bell, Jack and Beattie, Mr. and Mrs. H. Smith.

The Pincher Creek Board of Trade held a successful and enjoyable picnic at Waterton Lakes on Sunday last.

BLAIRMORE TENNIS CLUB

Fees for the 1926 season are now due and payable to the secretary-treasurer, Miss A. Marquis. The schedule is as follows:

Men, \$6.00; ladies, single, \$4.00, married, \$2.50; high school, normal and university students, \$4.00; junior members, up to age 17, \$2.00.

Will those who are intending to join the club kindly give in their names to the secretary at once, in order that arrangements for competition play may be put in hand.

Visiting players must be introduced by a member.

Mr. R. G. Foote and Mrs. Keat have kindly consented to take charge of competition play for the junior players. A competition will be started at an early date.

Messrs. Rhynas, Pruden and Muncester were appointed to take charge of the selection of players for the events in the forthcoming matches in the Crows' Nest Pass league.

It was decided that the men's double tournament, unfinished last fall, be proceeded with, and that the event be concluded by May 15th at latest. Coleman, as well as two local clubs, is still interested in this event.

A grand May-day dance will be given in the Union hall at Hillcrest tomorrow night, under auspices of Turtle Mountain Lodge, Knights of Pythias.

GRIM REAPER CLAIMS POPULAR YOUNG BLAIRMORE WOMAN

This community was shocked on Friday afternoon by the announcement that Mrs. H. J. Berlin had passed away at the Coleman hospital. She was taken to the hospital for an operation, emerging from same in fair condition. Her condition was thought to be satisfactory until Tuesday, when she took a turn for the worse, gradually sinking until she passed peacefully away on Friday at 11:30 a.m. Her husband, mother and sister were at the bedside when the end came.

Anna Matheson Berlin was born in Alpena, Michigan, on December the 19th, 1899, was educated in the city schools, where she specialized in music and became a talented musician. She came to Grass Lake, Alberta, in 1911, with her mother and sister. In February, 1918, she was married to Harold J. Berlin at Grass Lake, coming to Blairmore in 1921, where she was well and favorably known. She leaves to mourn her loss, her husband, her mother, Mrs. Matheson, and a sister, Mrs. Ralph L. Berlin, of Carmangay, and an uncle, L. C. McKinnon, of Foremost.

The remains were taken to Lethbridge by Sunday night's train, and funeral services were conducted on Monday afternoon by the Rev. W. E. Kelley, of St. Andrew's, Presbyterian church, following which they were laid to rest in the city cemetery.

JUNE THE FOURTEENTH LATEST ELECTION DATE

The Brownlee government will go to the people on June 14th.

This is the latest political rumor to gain currency in local party circles and it is credited with emanating from a trustworthy source, a source close to the Farmer government.

The rumor goes on to tell of the fixing of this date following the recent Liberal conference in the capital, when Capt. Joseph T. Shaw was selected as provincial leader and opened a vigorous campaign for a return to Liberal rule in Alberta.

Party leaders in the city have been under the impression that the middle of July would see the Alberta electorate going to the polls to pass its verdict on the U.F.A. government. In fact, Farmer members from the south have intimated that such would likely prove true and now comes the report that June 14th is the day Premier Brownlee will risk his position and his government in a general appeal to the people—Ex.

CARD OF THANKS

Calgary, April 19th, 1926
Editor, Blairmore Enterprise,
Blairmore, Alberta.

Dear Sir—
At the annual meeting of the Alberta Division, Canadian Red Cross Society, held in Calgary on March 9th, delegates present requested that the sincere thanks of the Division be conveyed to you for the support and co-operation rendered by you to the Red Cross during the past year. All present were unanimous in their expression of appreciation and thank for the co-operation and assistance given.

Yours faithfully,
MARY E. WAAGEN,
1st Vice-President and Honorary Secretary, Alberta Division.

The object of threshing any article is to free the seed which it encloses. A new threshing instrument is in use at New Westminster, B.C., in which are threshed the cones of Douglas firs, Sitka spruce and red cedar. The seed, of which three hundred pounds are obtained every twenty-four hours, are used in reforestation. About sixty-five per cent of the seeds germinate when planted.

ANNUAL MEETING OF BOARD OF TRADE

The annual meeting of the Blairmore Board of Trade was held in the general office of the Crows' Nest Pass Motors on Tuesday night, with a good attendance.

President L. L. Morgan presided, while Mr. W. W. Scott acted as secretary pro tem.

The minutes of last regular and annual meetings were read and approved.

The president, before calling for re-organization and election of officers, dealt at length upon the opportunities that were offered this year for united action on the part of the various boards of trade, town councils, etc., in the district. With improved road conditions, we might look forward to an unprecedented volume of tourist traffic, and everything possible should be done to make our towns and camps attractive and entertaining. An especial attraction this year would be afforded through the activities at Waterton Lakes, where the Great Northern Railway had already commenced construction of a million-dollar hotel. In all likelihood the C.P.R., whose line is now being extended to Glenwood, would eventually connect up with the Lakes. Mr. Morgan complimented the action of the town council in undertaking a tree-planting campaign, and also affixing with the All-Canada Red Trail Association, thereby relieving the Board of Trade of that amount of financial responsibility. The Board would go still further and appeal to the C.P.R. to co-operate with the town in the laying out and maintenance of a park square east of their station.

Election of officers resulted as follows:

Honorary Presidents—Mayor Farmer, Sir J. Chalmers.

President—Mr. L. L. Morgan (re-elected).

Vice-President—Capt. W. A. Beebe (re-elected).

Secretary—Mr. W. W. Scott.

Treasurer—Mr. W. A. Henderson (re-elected).

Committee—J. E. Gillis, W. J. Bartlett, M. Sartoris, R. Gray, H. Burns.

The secretary was instructed to communicate with Supt. Jamieson, of the C.P.R., in respect to the depot park square.

The Board will take immediate steps to have suitable signs erected at the east and west boundary bridges, also mileage signs between Blairmore and Lundbreck.

The Board will also co-operate with the council and the Coleman council and Board of Trade in the matter of fixing up the site at Crows' Nest Lake. The suggestion of establishing a swimming pool at the lake was favorably commented upon.

The membership fee for 1926 will be the same as last year, \$1.00.

KNIGHTS OF PYTHIAS TO STAGE MEMBERSHIP DRIVE

At the regular conventions of Turtle Mountain, Sentinel and Livingstone Lodges, Knights of Pythias, last week, committees were appointed to arrange for a great membership drive to start on or about May the 15th in this district. The drive will likely wind up with a grand convention in Blairmore about June 10th. J. W. Walworth, grand keeper of records and seals, and Jack Woods, of Coleman, past grand chancellor, will personally supervise.

ST. LUKE'S CHURCH OF ENGLAND

Services on Sunday will be as follows:
9:45 a.m.—Holy Communion.
7 p.m.—Evening Service.
BELLEVUE
12 noon—Morning Prayer.

PINCHER TO WATERTON ROAD TO BE GAZETTED SOON AS A HIGHWAY

A regular meeting of the board of trade was held on Monday evening, with Vice-President Freebairn in the chair.

Mr. E. G. Cook, M.L.A., was present and addressed the meeting briefly. He was very optimistic with regard to development generally in the Pincher Creek district in the immediate future. An important feature of Mr. Cook's speech was his assurance to the board that the Pincher to Waterton Lakes road would be gazetted as a highway. The government programme of road construction will be published shortly and will no doubt contain information as to what work will be done on this new highway during the year. Mr. Cook has recently been over the Akamina Highway as far as it is possible to go by car, and was more than pleased with the condition of the road. He very highly complimented Mr. J. Glyn, engineer in charge of construction.

The board was asked to endorse a resolution of the Lethbridge board of trade to popularize the name "Waterton National Park." The local board decided that it was most important that the word "Lakes" be included in the name, and accordingly suggested that the park should be known as the "Waterton Lakes National Park."

A committee was appointed to look after the publishing of a pamphlet advertising the advantages of the district from a farming and also tourist point of view.

Many new members are added to the board, as a result of the recent membership drive, but more would be welcome.—Pincher Creek Echo.

We were slightly in error in our last week's issue in stating that the miners' picnic was to be held here on the 25th of June. We understand that the date decided upon is the 19th, and that on the occasion several special trains will arrive from both east and west and that in addition to the two thousand or more local district miners at least two thousand will arrive from outside points, Fernie to Lethbridge.

This will be the biggest event in the history of the Crows' Nest Pass. Blairmore is likely to be entertaining in the neighborhood of five thousand miners.

We understand that arrangements have been made for the use of the arena, in the event of bad weather setting in. A most elaborate programme for the day is being arranged.

Six steamers brought 5664 passengers into Quebec in one day this week.

after the publishing of a pamphlet advertising the advantages of the district from a farming and also tourist point of view.

Many new members are added to the board, as a result of the recent membership drive, but more would be welcome.—Pincher Creek Echo.

WORLD HAPPENINGS BRIEFLY TOLD

Married women, travelling alone to Cuba will have to show authorization from their husbands before they can secure admission.

A reduction in the prices of automobile tires is announced for Great Britain. The reduction amounts to an average of ten per cent, and has become effective.

About the only place in the world where the birth rate has been increasing much lately is the South Sea Islands; the League of Nations has determined.

"Jisle" is the name London has devised for new two-seated taxicabs, which are to circulate in London streets in an effort to combat traffic jams charged by taxicabs which seat four passengers.

Large shipments of Australian butter which have been arriving in Canada recently via the United States are responsible for the recent reduction in the price of butter in some parts of the Dominion. It is stated.

The new Mexican immigration law has been published in Diario Oficial, thereby becoming effective. The law requires tax on all incoming aliens and registration of all aliens; it prohibits the entrance of aliens pursuing a calling forbidden in Mexico which may be applied to ministers of the gospel.

Blue sky legislation applicable to companies incorporated under Dominion charter will not likely, it is understood, be introduced during the present session of parliament. The prevailing opinion appears to favor calling of a conference with representatives of all provincial governments before any steps are taken in this matter.

Minard's Liniment for Burns

Orient Likes Canadian Wheat
Remarkable increase in Oriental demand for Canadian wheat is reflected in the regular statistical report of the Vancouver Merchants' Exchange. To the end of February the Orient took 16,091,758 bushels, as against 3,013,049 bushels in 1924-25 and 8,508,360 bushels in 1923-24. This increase is due to growing favor of Canadian hard wheat and to the fact that prices were right this season.

She Couldn't Sleep Heart Was So Bad

Mrs. J. D. McCallister, Charlottetown, P.E.I., writes: "About a year ago I was greatly troubled with my heart."

I could not sleep at night, and was so nervous I imagined that I could see everything in the room moving, and would have to turn on the lights before I could go to sleep.

After having read of your

I took several boxes of them, and can now get a full night's sleep without any trouble, and feel like a new woman.

It is a fact that have been on the market for the past 30 years; all dealers sell them; put up only by The T. Milburn Co., Limited, Toronto, Ont.

SUNDAY SCHOOL LESSON MAY 2

GOD'S COVENANT WITH NOAH

Golden Text: I do set my bow in the cloud, and a rainbow shall be for a token of a covenant between me and the earth. Genesis 9:13.

Lesson: Genesis 5:23 to 9:29.

Devotional Reading: Psalm 59:1-16.

Explanations and Comments

I. Antediluvian Wickedness and its Consequences.—Read the account of the Deluge, under the topic, "Light from Archaeology," and then the Teacher-Training Thought, page 163. The story explains an unusual flood as caused by God's wrath at the wickedness of the human race and his consequent desire to destroy mankind. Noah and his family alone were spared.

II. Building and Entering the Ark. 6:13 to 1:16. Amidst all the wickedness, Noah lived a blameless life. "God is in a special manner pleased with those that are good in bad times and places." Noah was therefore a justly righteous man, because he was so in that wicked and adulterous generation. (Matthew Henry). By faith, Noah, being warned of God, built an ark, in which he saved his family and the animals. Noah was built of cypress and coated with pitch; in shape it was "like a mountain," and it had four hundred and fifty feet long, seventy-five feet broad, and forty-five feet in depth. All around but were the roof a staircase left open for light and air, the roof being supported by posts. Its three decks were divided into compartments.

Recommended Them To Scores of Sufferers

Manitoba Man Used Dodd's Kidney Pills for Aching Back and Bladder Trouble

Mr. G. I. England Received Great Relief and is Now Very Enthusiastic About Dodd's Kidney Pills.

Dunford, Man.—(Special).—"I was troubled with my kidneys for some time. I used to suffer with an aching back and an aching bladder. I found your Dodd's Kidney Pills gave me great relief. I have taken them for ten years and am now recommended them to scores of sufferers."

It is noticeable that people who have used Dodd's Kidney Pills are always enthusiastic in recommending them to others. This is how Dodd's Kidney Pills have made and maintained their reputation.

Dodd's Kidney Pills are purely and simply a kidney remedy. They act directly on the kidneys, strengthening them and putting them in shape to strain all the impurities out of the system. Dodd's Kidney Pills will enrich your blood and feed your nerves, and if you take them you will give you a new store of health and energy.

British Families Coming
Twelve hundred British families are expected this year under the 2,000 family migration scheme, now in operation between Canada and Great Britain. The original agreement extends over three years, and if the anticipated 1,200 families arrive in 1926, one-half of the three thousand will be in the Dominion and the agreement will have one more year to run.

Strangled with Asthma is the only expression that comes to convey what is endured from an attack of this trouble. The relief from Dr. J. D. McCallister's Asthma Remedy is beyond measure. Where all was suffering there comes comfort and rest. Breathing becomes normal and the bronchial tubes completely cleared. This unequalled remedy is worth many times its price to all who use it.

Collects Snowflakes

W. A. Bentley, of Jericho, Vermont, is a snowflake specialist. Bentley says that February storms brought him about 75 new snowflakes, some of them of great beauty and interest. Investigation proved that there are 30 varieties of poisonous mushrooms.

A man's will goes into effect after death, but a woman's will is in effect during life.

Kindness—a language the dumb can speak and the deaf can understand.

ON THE AIR

What is Doing in the World of Radio

Nest to a telephone that will not answer is a radio machine that registers "everything" but the programme that is struggling to present itself. The man who says that he cannot hear a fifteen-pound bass last summer is now telling that his radio set gets Europe nearly every night.

Heartbeats that may be heard across the continent today are possible by the means of a new "radio stethoscope," recently experimented on at the University of Minnesota. Anthony Zeleny, professor of physics at the university, announces.

Out in Ingonar, Mont., the citizens close down the local power plant when they agree on a good radio programme. They agree that it is better to be without the power than to have the plant interfere with radio reception, according to a letter received at station WHI, Chicago.

A run-down "B" battery may cause crackling sounds that cannot be distinguished from some forms of static. The quickest way to determine between them is to disconnect the battery and ground while your set is in operation. If the noise stops, your batteries are not causing it.

Smart For the School Girl

A very practical style of dress for school wear is the model shown here. Ample freedom for play is provided by the deep inverted pleat in the front of the skirt. A vest of plain, contrasting color material is set into the dress with three rows of machine stitching. The same stitching outlines the edge of the boyish collar. The back is plain and the long sleeves are marked for a shorter length. Duroingham, linen, cotton broadcloth, or figured rayon would be suitable washable materials for this frock. No. 1303, which is in sizes 6, 8, 10, 12 and 14 years. Size 8 years requires 2 1/2 yards 36-inch material; short sleeves 3/4 yard less material. Price 50 cents.

Our new Fashion Book contains many styles showing how to dress boys and girls. Simplicity is the rule for well-dressed children. Clothes of character and individuality for the junior folks are hard to buy, but easy to make with our patterns. A small amount of money spent on good materials, cut on simple lines, will give children the privilege of wearing adorable things. Price of the book 10 cents the copy.

Failure Of One-Crop System

Attention Now Being Given to the Growing of Legumes

(By Jas. D. McGregor, Glenora, Stock Farms, Brandon, Manitoba)

Western Canada is the best land for a small grain growing country. The climate, soil and all other conditions have combined here to justify the great grain fields to the exclusion of other lines of farming. However, on land that has been farmed from 10 to 25 years, the production has decreased from various causes, until the profits in strictly grain farming are no longer certain.

All one-crop or grain farmers realize sooner or later that the fundamental principle of farming is being neglected; that the decrease in yields and the difficulty with weeds, plant diseases and other pests, is due to the one-crop system, which depletes the available fertility of the soil, and does not provide for saving or increasing this fertility, or for controlling weeds and other pests. Hence, the great interest being taken in livestock, corn, alfalfa and clovers is not for these things alone, but because they will be the means by which the profitable yields and production of small grains may be maintained.

The one-crop system is not peculiar to Western Canada as all new countries have perished in the crop most easily grown, and which gave the best cash returns. When this crop has ceased to be profitable, usually due to the depletion of soil fertility, attention has been given to the growing of legumes, the raising of livestock and perhaps to the use of some commercial fertilizer.

"Legume" is the name of a class of plants of which alfalfa, sweet clover and other clovers, beans, peas, etc., are members. The seed is borne in some form of pod. This class of plants differs from all others in that they provide a means of obtaining nitrogen from the air. Nitrogen is one of the essential elements of plant food. No plant can make any growth whatever without it, and it is the most expensive element when bought in commercial fertilizer. It is also the most abundant element in nature, as more than half the air is nitrogen. Hence, clovers, alfalfa, etc.—legumes—are utilized for the purpose of restoring this element of soil fertility. Young animals, and particularly milk cows, must have nitrogen in their feed, for no growth or milk can be made without nitrogen.

All plants use nitrogen, but the grains, grasses, corn, etc., must rely on the small available stores in the soil, while the legumes may draw on the unlimited stores in the air. For this reason the hay and straw from legumes are much richer in nitrogen than that from the grains and grasses. Legumes obtain this atmospheric nitrogen by the aid of bacteria which live in tubercles on their roots. Unless these bacteria are present, the legume would be no more able to utilize the atmospheric nitrogen than any other plant. When the bacteria are not present or for any reason will not grow on the roots, the legume will not produce satisfactorily because it is natural for these plants to obtain a part of their nitrogen from the air. Artificial inoculation, liming the soil, etc., may be employed to advantage, especially on poorer soils.

Farmers of the old farming regions resort to every known means of saving plant food and returning it to the soil. Here in the new country, when land is worked out, we have moved on west or north, to new land, or cleared the timber from new land.

The greatest asset of the farmer is his soil fertility. Like fortunes, this fertility may either be used over and over again, or it can be dissipated and wasted in a few years. When yields are below the cost of production, or below what they formerly were, it is evident that there is need for studying this situation. Rotation of crops aids in controlling weeds, plant diseases and insect pests, and also enables the farmer to feed livestock and return a part of the fertility to the soil in the shape of farmyard manure.

The time is here when those things must receive attention, and prudent is the farmer who adopts a system of farming that will save soil fertility, and keep his land free of weeds and plant diseases, while he is yet able to do so.

Faith enables a man to eat hash.

42—Tendency.
44—For all time.
45—Dry, wither.
48—Before.
49—Part of the foot.
51—Shilling (abbr.).

THREE HAPPY FAMILIES

Among the recent newcomers to the Canadian West are three large British families who arrived at Halifax on February 28th, on board the Cunarder Albatross from Liverpool.

All are bound for Vancouver, and travelled under the special reduced rate arranged for by the Government. Some indication of what they think of the adventure of the voyage, and their delight in coming to Canada, may be gained from their happy interested faces. They included two brothers, Osmund from Newport, Monmouth, and their wives and seven children. The other family is from Doncaster, also bound for British Columbia. The photograph shows them on the deck of the Albatross.

cleared the timber from new land.

The greatest asset of the farmer is his soil fertility. Like fortunes, this fertility may either be used over and over again, or it can be dissipated and wasted in a few years. When yields are below the cost of production, or below what they formerly were, it is evident that there is need for studying this situation. Rotation of crops aids in controlling weeds, plant diseases and insect pests, and also enables the farmer to feed livestock and return a part of the fertility to the soil in the shape of farmyard manure.

The time is here when those things must receive attention, and prudent is the farmer who adopts a system of farming that will save soil fertility, and keep his land free of weeds and plant diseases, while he is yet able to do so.

Faith enables a man to eat hash.

THE STORY THUS FAR

Joanna, pretty, modern, a shop girl, making her way alone in the world is introduced into the presence of Graydon, her employer, to learn that an unknown man has given her a cool million to spend as she wishes. Dazed, incoherent, she asks as to the meaning of this deluge of money. She is told that she is not even to know the name of the man who is giving the money. There are no "strings" to the gift. You will not be asked to give anything," said Graydon, in reply to her questions. Still unable to understand this "coverbal" information, she is sent to banker Eggleston where the money is on deposit.

CHAPTER III.—Continued.

"If your benefactor has directions to give," Eggleston went on, with the banker's manner of monotonous dwelling upon the detail of a financial bargain, "they will be given the bank and will have to do only with additions to your funds, or the cessation of them. At any rate, the present deposit of one million dollars, which includes account fees, we should be glad to negotiate for you should you require the cash, as it is your disposition and none of it will be withdrawn from you. It could not be, in any event, as it has been completely transferred to your account. You must accept it, to do with it as you will. You will not be asked for an accounting."

"And it's really true that I don't have to go back to the office? To my job at the store?"

Eggleston's smile was quizzical. "I should be rather astonished to know that a young woman with a million dollars in the bank's vaults was concerned as much with the selling of silks as the buying of them."

Joanna pouted. "If I had a million dollars you can bet the last spot on your hip—I mean you can bet I'd do a lot of buying, too, don't you?"

"I wouldn't wonder!" Eggleston commented, shortly. Joanna looked up at him quickly, detecting the hardness in his voice. "Oh," she sighed, "I guess he's right. I don't know, but I wouldn't put it all into dancing pumps, you know?"

The girl pondered. She'd never thought, much beyond dancing pumps and their kindred things.

"What else, then?" Eggleston repeated.

There was nothing for Joanna to do but fall back upon her subterfuges. She had many subterfuges. They covered a multitude of a girl's needs nowadays.

"Wait until something like what you're kidding me about really happens," she said at last, brightly, "then watch me!"

"Perhaps that will be the better bargain," the banker agreed, his voice still hard in the unpleasant way the girl didn't like so well. He pointed to the opened check book which Joanna brought at her hand. "It will be as to feel real, won't it, when you have filled out one of those?"

The girl's eyes swam again. She

picked up the book of loose, slender leaves, and examined it curiously. Here, at her finger tips, would be the test—the test of the impossible dream, these two old men, her employer, Graydon, and his friend, Eggleston, were pulling her into. She clutched at an obvious excuse to postpone what she was convinced would be the tumbling down of the house of cards that was being built for her.

"I've never had to write out one of those," she protested. "I'm afraid I'd get it twisted."

The man who had been watching from the window came abruptly into the room. A sign, merely a meeting of the eyes, passed across the girl between him and the banker. Joanna turned sharply when she realized a new figure was standing almost beside her. She knew, instantly, that she had been right in feeling that additional presence in the room. When she looked up into the newcomer's face a sudden fear, a sense of danger, tingled along her nerves. She had met many men in whose slightest approach she always recognized a challenge and a raid against her battlements. Unconsciously she stiffened in her chair. But Eggleston spoke calmly.

"I have forgotten to present Mr. Brandon. He is very close to me, in a manner, and is interested in your extraordinary circumstances—for which I had told him. He begged me to let him pay you his compliments."

Brandon bowed, easily, his manner marking him immediately in Joanna's mind as one who could make devotion gracefully at any kind of feminine shrine. She reflected that he would be the sort that would dance well and say things that fitted the music.

"But I am going to ask Miss Joanna if it may not do more than offer my congratulations," Brandon said, smiling down at her. "Perhaps she will allow me to help her draw her first check. That will be something I shall always remember—when Miss Joanna has taken her place among the 'hill tops'."

Dazed again by the imminence of the test, Joanna obeyed him silently, the letters made by her pen running together in a black mist as he pointed out the place for her signature, the date, that—she thought—After one or two attempts she signed her name to his satisfaction and her own. Then she wrote in the date—as supplied by Brandon.

"And now," Brandon said, softly, almost carelessly, "the amount."

She looked across the table, at Eggleston. He nodded. "Any amount you need—or that would like to carry away," he said.

A wild impulse stirred Joanna's blood. "She would make the test a real one, puncture the bubble with one stroke of her pen. Her fingers firm, now, a light of determination in her eyes. She would demand a sum which would—well, something would happen then."

Her pen shaped the line: "One Hundred Dollars!"

Brandon laughed. He lifted the check, so laboriously and then, definitely, written out. He read the amount aloud. A twinkle came into the eyes of the banker at the other side of the table, but he said nothing. "Let's try it again," Brandon said.

Between radio and television a person may have a hard time soon without his own body.

Tanlac builds strong bodies

There's nothing like Tanlac to purify the blood, put the stomach and liver in working order and build up a run-down body.

Millions of men and women have been benefited by this great tonic and builder that is composed after the famous Tanlac formula from roots, bark and herbs.

If you are nervous, suffer from indigestion, have rheumatism, are old liver, buy a bottle of Tanlac at your drug store today. See how you start to improve right from the first. Take Tanlac Vegetable Pills for constipation.

being ushered, silently watching her, Joanne closed her eyes in quiet communion with herself.

It was real! The fantasy had become a chapter of life with "Miss Twenty-seven of the Street" lifted from the valley to the hilltops where there possibly couldn't be any shadows.

Weakly, she made new battle for understanding, and again lost. They, those two men, one of which, she was sure, knew the whole of the mystery, would "sell her" nothing. Brandon professed to know no more than she; he declared that the banker had told him nothing of the motive or the source of her sudden shower of gold.

"But," said Brandon, "you will not shut me out! I hope, from the rest of the wonders. You will let me walk with you, now and then, along your new path!"

(To be continued)

Principles Of the Press

President Coolidge Covered Subject in Very Few Words

From two speeches delivered by President Coolidge on the subject of journalism, the following passages are selected, as particularly worthy of quotation:

"The right to have a fair and complete discussion of all problems is a necessary attribute of a free people. It is the function of a free press not only to make the truth available to everyone within its sphere, but to cherish and develop a public sentiment for all that is loyal to truth."

Free discussion, but a free discussion which aims at truth, cherishes truth and develops truth. Volumes could not have covered the subject more adequately.—Buffalo Express.

Educational Tour

Montana Farmers to Pay Visit to Saskatchewan This Summer

Authorities in the six northwestern counties of Montana are co-operating in conducting an educational tour of farmers to Saskatchewan during the month of July. It is proposed to visit several points, including Regina and Indian Head. It is also likely that the party will visit the central section of the province to see how farming is carried on there as compared to the more southerly districts.

Shipped First Gasoline

The Alberta Refiners, Limited, an infant industry in Edmonton, shipped its first carload of gasoline in March. The consignment was followed shortly afterwards by two more carloads, also sent to Alberta destinations.

Between radio and television a person may have a hard time soon without his own body.

Was Freed By Livingstone

British East African Obed Liberty to Famous Explorer

Once a fettered slave, and released from fetters by David Livingstone and Bishop Mackenzie, 64 years ago, a British East African native named Tom Bokiro Gouman, recently died. With others, Tom in shackles was being led to slavery. The slave drivers fled at the sight of two white men. Tom, with the other freed slaves of the gang, was taken to Cape Town, where they were educated. Later Tom and two companions volunteered to return to their old homes and act as interpreters to the Livingstone mission party in 1875, which was setting out to open up the East Africa district to mission work.

He was with the founder of Blantyre, and later found relatives from whom he had been stolen sixteen years before. He then took up elephant hunting, and later became under chief of a small village. He made the last link with Blantyre, and his romantic history for constipation.

Sour Stomach Risings Subdued by 'Nerviline'

A Few Drops Bring Relief

The wonderful relief you get from twenty drops of Nerviline will surprise you. Take it in sweetened water, and almost immediately you feel better. Nerviline brings up the gas caused by fermenting food, and relieves that distressed feeling in the stomach. When colic or cramps strike you at night, Nerviline is a sure relief. For general use in the family, for emergency, always keep trusty Nerviline on hand. See at all dealers.

Stones May Reveal Early Religious Beliefs

Professor of Egyptology Expects to Make Known Translation of Inscriptions

Religious beliefs regarding life beyond the grave, held by Egyptians more than 3,000 years before the birth of Christ, may be revealed in inscriptions on stones just discovered in the University of California Museum.

Two stones on which inscriptions were carved served as the jamb and lintel of the tomb of Senectum, which was explored by archaeologists about the time the civil war ended. Because tomb probably was an officer of the ancient king of Egypt and served as a guardian of the Valley of the Kings, where the tomb of Tut-Ankh-Amen was invaded by scientists. He may have been the founder of an hereditary line of keepers whose duty it was to guard the tombs from the depredations of grave robbers, a form of outlaws that is as old as mankind itself, says Dr. H. F. Lutz, professor of Egyptology. He expects to make known a translation of the inscription soon.

Trying Out Ingenious Scheme

Dropping Mail Bags From Aeroplanes May Become Common Thing

Letters dropped 6,000 feet from aeroplanes into delivery fields on the ground may become a common thing. It is being made more so by the fact that it is a waste of time for aeroplanes to make a landing every time a mail sack is delivered, so this ingenious scheme is being tried. Details have been kept secret (says a writer in Popular Science), but it is believed that at a certain distance from the earth, parachutes will open so that the bags will float down the rest of the way and land without damage. Waiting motor cars then will distribute the mail.

An Entertaining Man

London Hawker Makes Living Out of Pleasant Carriage of Only Ten Passengers

Attempt To Salvage German Battle-Cruiser

Company Work at Scapa Flow to Salvage German Battle-Cruiser

Scapa Flow will be the scene this summer of the biggest salvage feat ever attempted when the battle-cruiser Hindenburg, sunk in the scuttling of the German fleet six years ago, is to be refloated.

Twenty-one of the smaller vessels have been raised already by means of floating docks and wires; but the Hindenburg, which has a displacement of 27,000 tons, is too unwieldy.

The water, therefore, is to be pumped out of her, so that she may automatically rise to the surface.

"She lies on an even keel," said Mr. Cox of Messrs. Cox and Danks Limited, the contractors, "with practically only her superstructure showing. Our main difficulty will be to stop up all portholes and the eight sea-cocks under the engine room, by the opening of which the sea was sunk, and thus prevent the inflowing of the water."

"Steel patches or concrete will be placed over the holes, and when this is completed she will be pumped out from the top."

"We calculate that the whole operation will occupy about six months. The four floating docks were moved into position round the Hindenburg on March 1, and will serve as working platforms for the divers and men engaged in the task."

"Twelve divers will be constantly at work, and they have already made a preliminary survey of the hull, which is lying in sand and shingle, covered with barnacles and thick seaweed."

If this operation is successful the firm anticipates that it will be possible to raise the remaining big ships by the same means at the rate of two a summer; but with the exception of the Hindenburg, which remained upright owing to the comparative shallowness of the water, the others are tilted over. The Hindenburg will be beached and broken up into scrap.

A MEDICINE THAT ALL MOTHERS PRAISE

Baby's Own Tablets Banish Babyhood and Childhood Afflictions

Mrs. H. Oakes, Barns, Ont., says: "I have used Baby's Own Tablets in my home for the past fifteen years and I believe the good health my children enjoy is due entirely to this medicine. The Tablets are helpful at teething time, relieve colic and are always beneficial in the minor ailments of little ones. I have recommended Baby's Own Tablets to other mothers whose experience with them has been as satisfactory as my own."

Baby's Own Tablets do one thing only, but they do it well. They act as a gentle laxative which thoroughly regulates the bowels and sweetens the stomach, thus banishing constipation and indigestion; colds and simple fevers and turn the cross, sickly baby into a well, happy, laughing child.

Baby's Own Tablets are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Talked Too Much

An Englishman and Irishman employed in a drug store in Florence went on a spree together the other day. Both were arrested. The Irishman was let off with a light fine, because he was only drunk and disorderly. The Englishman was sent to prison for eight months and fined 3,000 lire. In addition to being drunk, he had spoken disrespectfully of Mussolini. People have to speak softly in Italy these days.—Hamilton Herald.

Keeping Fit! A Matter of Habit!

Good Health Is Within Reach Of All Who Observe This Healthful Habit

There is a very good reason why so many people find themselves subject to lumbago, headaches, biliousness and weakened vitality. They have failed to acquire that healthful habit of regular daily bowel evacuation, with the result that they find themselves victims of constipation.

Modern living conditions tend to decrease the amount of natural lubricant in the intestines, making regular elimination of the bowel contents difficult.

Under such circumstances poisons from the waste matter that remains behind are picked up by the blood and absorbed by the system, resulting in the general health and vitality.

Najol, the scientific internal lubricant augments nature's lubricant, and is picked up by the blood and absorbed by the system, resulting in the general health and vitality. Najol softens the waste matter and permits thorough and regular elimination, without overtaxing the intestinal muscles.

Najol is not a laxative, and may be taken for any length of time without ill effects. At all druggists.

Little Helps For This Week

Lo, I am with you always.—Matt. xxviii, 20.

The day is long and the day is hard. We are tired of the march and of keeping guard.

Tired of the sense of a fight to be won, Of days to live through and work to be done, Tired of ourselves and of being alone.

And all the while did we only see, We walk in the dear Lord's company; We fight, but 'tis He who hurls our arms.

He turns the arrows which else might harm, And out of the storm He brings a calm.

Did you not know me, my child? You have thought the thoughts that I inspired; you have spoken my words; you set forth to fight on my side in the battle against evil; and yet you forgot me, and have often gone near to deny me while I was standing by your side, and giving you the strength to speak and think a life which you took to be your own. Look at me now, and see if I am not better than the images that have hid me from you.—Annie Keary.

An Oil of Merit—Dr. Thomas' Electric Oil

Electric Oil is not a jumble of medicinal substances thrown together and pushed by advertising, but the result of the careful investigation of the healing qualities of certain oils as applied to the human body. It is a rare combination and it won and kept public favor from the first. A tit of it will carry conviction to any who doubt its power to repair and heal.

COOTE MAKES GOOD

That Mr. Coote, the member for the federal riding of Macleod, has made good in his capacity as representative at the federal house is very apparent. In the progressive ranks he stands well to the front and has a faculty of presenting his arguments in such a manner that he commands attention as well as the respect of the members of the various parties. At the various sessions of parliament, Mr. Coote has labored assiduously in securing a reduction on the duty of autos and tractors, and it is noteworthy that parliament last week made the reduction. The Saturday Night has the following reference to our member:

"A much livelier interest was manifested in another private member's tariff resolution—that of the Progressive, Coote, for a reduction in the duty on motor cars. This resolution was brought on by way of supplying a demonstration in favor of a slash in the duty in advance of the budget. It succeeded in that. A number of Progressives and some western Liberals strongly argued for the cutting of the duty. Mr. Coote himself, is one of the best minds of his group and he made out quite a case against the thirty-five per cent impost. He gave figures to show that the difference in the prices of cars here and in the United States, exclusive of extra imports here, closely corresponded with the tariff and he even invoked the authority of Henry Ford himself in favor of cheap cars as a means of encouraging national development. He found support for his cause in a protectionist quarter, quoting Mr. Hocken in the 'Orange Sentinel'. Summing up, Mr. Coote reckoned that if the Canadian people had bought all their cars in the United States from the first they would have contributed \$20,000,000 a year to the federal treasury, and could thereby have amortized the national debt, granted old age pensions, or done some other useful but expensive thing."—Ex.

DANCE DRINKERS

Girl students in a Michigan college started something when they reported to the college authorities that ten boys invited by them to a sorority dance had "abused their hospitality" by drinking liquor at the party.

The girls did not give the names of the boys, but asked the authorities to give the offenders a chance to admit their guilt. The boys came forward manfully, and confessed that they had brought a quart bottle to the dance and drank its contents, whereupon they were suspended for three weeks.

"We might be called prudes by some people," says one of the sorority girls, "but we have ideals and traditions to uphold at this college, and we did what we believe is right. It was not an easy thing to do. The boys were our friends and guests. But we were forced to take the action we did."

Evidently it was right. The girls vindicated their position, and the boys took their medicine without whining. It isn't likely there will be any more drinking for a while at dances at that institution.

The story shows an obvious remedy for dance-drinking everywhere. The remedy is in the hands of the girls themselves. They can set and maintain their own standard; the boys will rise to them.—Calixto Chronicle.

The weekly radio health talks of the Red Cross Society, broadcast over CFAC through the kindness of the Calgary Herald, will come to an end this month with an address by the Hon. Irene Parbury, of Alis, entitled "The Home." This paper was written for the child welfare convention in Calgary and delivered there by this gifted and popular speaker. The broadcasting of radio talks has been a very much appreciated service, and the Red Cross is in receipt of many letters showing the value these addresses are to women in the country. As material for afternoon talks at Women's Institute meetings or U.F.W.A. gatherings, there is much demand for these papers, and any one writing to the Alberta Division will receive them, free of charge. The subjects deal with the training of children, their mental and moral development.

The following is an interesting story in connection with the radio addresses. A firm of publishers in New York, the University Society Inc., hearing of the good work being done by the Red Cross of Alberta in connection with these weekly lectures to women over the air, have kindly sent to the Radio Lady, CFAC, a gift of a valuable set of books, entitled "Treasury Series," in twelve volumes, for the use of the Red Cross radio service. This complete literature set will be of immense value to the health education and information bureau, and it is expected that in the fall when the Red Cross hopes to resume the air addresses, selections from the books will be broadcast in connection with the educational and inspirational work amongst women.

The Radio Lady will be pleased to send material for health reading to any correspondent free of charge and will also supply literature helpful in connection with child welfare addresses.

Write to the Health Education Bureau, Alberta Division, Red Cross, Calgary.

A SLAM AT THE CROWS' NEST PASS

Employment Service of Canada, Government of Alberta, Lethbridge, Alberta, April 21st, 1926.
Secretary, Miners' Union, Blairmore, Alberta.

Dear Sir:—
This is to advise you that Mr. Smitten, the Director of the Alberta Government Employment Service, was in Lethbridge yesterday, when the question of obtaining and placing domestic workers on farms was discussed.

Mr. Smitten informed me that a Mr. Forsier, whom I understand is interested in the welfare of miners and their families, has stated that a number of girls and women residing in Blairmore, were at liberty and desirous of obtaining domestic work. In this connection I might say that we have a number of vacancies on farms in the country which call for domestic help as housemaids, cooks and housekeepers; wages vary from \$20.00 to \$30.00 per month and board, according to age and ability.

I shall be glad if you would submit names, address and ages of all women in your district who would be willing to accept domestic work, and on receipt of same, every effort on my part will be made to bring the employee and employer together with the least possible delay.

Trusting to hear from you in this connection, I remain,

Yours very truly,
AR.M.G. A. REDSHAW,
Superintendent, Alberta Government Employment Bureau, Lethbridge, Alberta.

P.S.—All vacancies on hand at present, call for girls and women capable of speaking the English language fluently.

Owing to Saturday, May 1st, being a miners' holiday, tomorrow (Friday) will be pay-day for the district mines.

The Rev. F. B. Clayton, known throughout the H. of which he was founder and first pastor, as "Tabby," addressed a large number of the members of the London Press Club recently. It was intimated that an effort would be made to form a group at the club.

Pointing out that good things had often come out of great wars—the Crimean war, and the Boer Scout movement out of the South African war—he suggested that the H. of which he was founder and first pastor, as "Tabby," addressed a large number of the members of the London Press Club recently. It was intimated that an effort would be made to form a group at the club.

It lived up to the motto over the door of the first Tabby in the Ypres salient—"Abandon rank all ye who enter here." At Manchester there had two members, one of whom subscribed £400 a year and the other £200 a year. One of these men shared a room with a member whose subscription was only 2s. 6d. a year.

In London an Eton and Oxford man, who was a rising barrister, paid £4 a week to share a room with a chauffeur who paid 25s. a week. "Snobbishness, the one deadly and unforgivable sin, has been eliminated in our ranks," he added.—London Daily Chronicle.

THE BEAUTIFICATION OF RURAL SCHOOL GROUNDS

The Canadian Horticultural Council have earned the gratitude of every public spirited citizen in fostering the ornamental planting of the school grounds throughout the country. Commencing last year, ten silver cups were offered for competition in various districts of the Dominion to the rural schools accomplishing the greatest degree of beautification of the grounds during the year. Most of these cups were won last season, but they cannot become the property of any school until won three times, not necessarily in succession. With the winning of each cup goes an Award of Merit Certificate that may be framed and kept by the school as a permanent record.

Mr. L. F. Burrows, secretary of the horticultural council at Ottawa, announces that the number of entries being received promised keen competitions this year. With each entry a photograph of the grounds should be supplied, to be compared with a similar picture taken in the autumn showing the improvement that has been made. Trustee Boards, Women's Institutes and Horticultural Societies are urged to co-operate with the council, which will provide instructions and suggestions on the plants that may be used and their arrangement in the school grounds.

TELL YOUR CHILDREN THE TRUTH

A complimentary copy of a little booklet issued by the division of education of the Canadian social hygiene council has just been received at The Enterprise office. It marks the high water mark of present day knowledge concerning health education in Canada, and is the harbinger of a new and more enlightened epoch in the social life of the race. It is written in a concise, clear, courageous and helpful manner, and every parent should get one. They may be obtained free of charge by writing to Alec D. Hardie, Hygiene House, 40 Elm Street, Toronto 2, Canada.

BOARD OF TRADE RENEWS LAST SEASON'S OFFER

At the meeting of the Board of Trade, on Tuesday night, it was decided to again offer prizes for the best gardens and best kept home surroundings. This is open to residents within the town limits. Get busy now. Further particulars will be announced later.

The elections will take place in Ontario on June the 25th.

Local and General Items

Saturday, April 26th, is the 107th anniversary of the founding of the I.O.O.F.

A crank is a man in whose head an idea has been condemned to solitary confinement.

Mr. and Mrs. Robert Gray, accompanied by Mrs. G. McMan, motored to Lethbridge and back on Saturday last.

Dr. J. S. Hynes, passing through Windsor, Ontario, recently, met with Mr. G. Norman Elwin, former Blairmore druggist, who is now located in Windsor.

Now that so many children within school age are staying away from school for reasons, we would suggest that a test be made by the board in enforcing the truancy act.

Walter Sharp, a former convict, telephoned an undertaker at Nashville, Tennessee, to send two coffins. Two policemen found Mrs. Sharp dead and Sharp standing with a pistol in his hand.

Today is anniversary day for the Oddfellows and Rebekahs and fitting ceremonies will be carried out in the Lodge Hall, commencing at 8 o'clock. All local members and visitors will be made welcome.

The tree-planting car, which was to have covered a long itinerary in Southern Alberta this month and next, has been cancelled. The car is to go to British Columbia for special duty in forest fire prevention.

Taber suffered a \$50,000 fire on Thursday morning last, the Taber hotel, Zack's jewelry store, P. Burns & Co., and the O.K. Cafe being wiped out. The cafe was owned by Mah Joe, who formerly worked for Mar Poy here.

George Campbell, working in the McMillan mine at Coleman, met with a nasty accident on Saturday morning last. He sustained a deep gash in the back of his head through a fall of caprock. For a time it was thought the accident would have fatal results and relatives were called in. His condition, however, has greatly improved and there is now hope for complete recovery.

CARD OF THANKS

We desire to thank all our friends who placed cars at our disposal and for the beautiful floral tributes and the sympathy extended to us during our recent sad bereavement.

MRS. A. MATHESON.
H. J. BERLIN.

We can't understand what some motorists are driving at.

In the United States there are about three million persons ill all the time, and doctors say 42 per cent of this illness is preventable.

It is expected that nearly 50,000 auto licenses will be granted in the province this year. Provision has been made for issuing at least 57,000.

The local mill of the McLaren Lumber Company started sawing operations last week. The company expects to get in a good season's work.

Magistrates and prosecutors in Illinois, who have been punishing violators of traffic laws, are learning to drive automobiles themselves in order to discover how easily traffic rules can be violated.

A local Scotchman received a violent kick behind that put him out of the house the other night. Complaining to the police about the matter, he was asked why he did not pull out. He replied "Cantilever!"

The town of High River tax rate for the year 1926 has been set at sixty mills, being the same as last year, covering town and school. The municipal rate has been lowered four mills and the school rate raised four mills.

An elderly man and his son, of Hillcrest, were on Saturday last sentenced to two years and one year, respectively, for using knives in a row at Hillcrest recently, in which a woman and other parties were somewhat cut up.

In order to create an interest in school work, the Nanton Lodge, B. P. O. E. No. 104, have awarded prizes to the boy and girl coming first in each grade during a stated month, the prizes taking the form of free passes to the theatre for a month.

The Banff-Windermere highway, via Lake Louise, will open for traffic May 24th. The Alberta end of the highway, from Calgary to Banff, is said to be in excellent shape. Indications are for a very heavy tourist traffic over this road this season.

Ontario retail merchants are urging that a tax be placed on all mail order houses, according to the amount of business they do in small municipalities. Their claim seems justified, that these houses should bear part of the expenses of the municipalities from which they derive their chief income. They work largely to the detriment of the small town merchant and therefore to the country at large. Kill off the small town merchants and the nation would be badly off, indeed—Beamsville (Ont.) Express.

Rightly the municipality should bear the responsibility of paying the affiliation fee with the All-Canada Red Trail Association. We do not know of any town along the line in Alberta that stands to benefit more from tourist traffic this season than Blairmore and every citizen should take an interest and do his or her share towards making the town attractive. The more beautiful our town is the more likely are tourists to stop with us a while. Of late years the membership fee has been provided by a very few persons who had little or no more to benefit therefrom than the average citizen.

We cannot as yet see that the new Dominion budget provides much change that will particularly benefit the fruit and vegetable growers. Every season vast amounts of these commodities are imported from the U.S. at extremely low rates of duty, the effect being to largely limit the market for the home products.

Repeated requests for relief have been made to the government, but all appear to have been ignored. The reduction on auto duties appears much like a sop to the demands of those who have been clamoring for relief from burdensome taxation. At the same time, the tariff changes in any line cannot be said to greatly favor the Canadian manufacturer.—Beamsville (Ont.) Express.

The town has a few trees to spare. Anyone desiring these for planting may obtain same on application to Mayor Farmer.

Strange, but the man who tries to drown his troubles always seems to have an idea that they are located in his stomach.

Mr. D. G. Mackenzie, of the law firm of Gillis & Mackenzie, has been confined to his home through illness for the past week.

Mr. Jensen, who for the past couple of years conducted a barber shop here, has sold out his interests and opened up in Moose Jaw.

A man named Gillis has been in the custody of the police for the past couple of weeks, awaiting trial on charges of obtaining money under false pretences.

Hundreds of tourist cars have passed east and west through Blairmore during the week, and already indications are that this season's tourist traffic will easily double that of last season.

We have received letters during the past couple of months from several of our friends in the Maritime Provinces, and intend to reply as soon as the penny postage comes into effect. We understand that will be Dominion Day, July 1st.

According to proclamation by the Lieutenant-Governor in the Alberta Gazette, Arbor Day in the province will be observed on Monday next, May the 3rd. The day is declared a public holiday throughout the province of Alberta for the planting of forest and other trees.

Thomas Duncan returned yesterday from a trip to California. Tom says he has given up the idea of rebuilding his hotel in Elko and that he may locate in Fernie if he can purchase a hotel here. His family will remain in California until he decides on his future location.—Fernie Free Press.

While the town is being somewhat beautified by the planting of trees, laying out of gardens and lawns and improving streets and avenues, some attention should be paid to certain parts where cans and general rubbish has been allowed to accumulate within the town limits. A clean-up day is necessary.

A case is reported from Red Deer in which a young English girl responded to a matrimonial agency ad and came to Canada in quest of a husband. Her would-be hubby was found to be over eighty years of age and at the time of her arrival he was in hospital in a dying condition and died but a few hours afterward.

For some months two men who were political enemies were not on speaking terms. One day they met face to face on a narrow pavement, which only afforded room for one pedestrian at a time. "Sir," said one of them, drawing himself up to his full height, "I never give way to fools." "Don't you?" responded the other cheerily. "I always do," and immediately stepped into the road.

District officials of the Forestry Branch desire to express their thanks and appreciation of the valued assistance rendered them by citizens of the district in gathering together display items in the nature of mounted game specimens, trees, vegetation, etc. Especially would they thank the McLaren Lumber Company for the splendid display of samples of board from Crows' Nest forest reserve timber.

The famous Naden car was removed from here to Edmonton last week. This Cadillac car, laden with liquor without the seal of the Alberta Liquor Control Board, was seized by Sgt. Duncan and other members of the Blairmore detachment of the A. P. P. about eighteen months ago, and was ordered confiscated by Magistrate Greshman. Appeals against the magistrate's decision, even to the privy council, on behalf of Naden, were unsuccessful.

A Fincher Creek man was last week fined \$10 and costs for fishing from Corbin last week on a visit to local friends.

Mrs. Robert Smallwood was down from Corbin last week on a visit to local friends.

An important fact about

CHEVROLET

THIS one-piece windshield is the same construction as found on the much more expensive Fisher Body closed cars. It permits full, unobstructed vision and, when raised, perfect ventilation.

When partially raised it functions as a cowl ventilator the full width of the cowl. The windshield is raised and lowered by a few turns of a Termstedt regulator.

All closed models are equipped with automatic windshield wiper. A textile leather-covered steel sun visor and cowl lamps are also standard equipment.

CHEVROLET

FOR THE THRIFTY HOUSEHOLD

To spend in the market where one's money brings greatest returns is a distinguishing mark of successful home financing. And careful finance in the home is an important factor in national prosperity. For the Western household, the EATON General and Grocery Catalogues are the ideal mediums through which to shop, offering goods of a quality, value and variety that can suit the tastes and wishes of practically everybody. Especially to the housewife would we say: For good things to cook, buy from the EATON General Catalogue; for good things to cook with, buy from the EATON General Catalogue.

T. EATON & SONS LIMITED
WINNIPEG - - - CANADA

MANITOBA POOL REJECTS OFFER OF GRAIN GROWERS

Winnipeg.—Following the announcement that the Manitoba Wheat Pool had declined an offer made by the United Grain Growers for a working agreement in respect to elevator operations by the two organizations, T. A. Crerar, president of the United Grain Growers, issued the following statement with respect to the offer made by the company:

"Our suggestions are merely carrying out the policies laid down by the delegates at the annual meeting of the company last November. They would give the pool control of pool grain and at the same time preserve the competition of the farmers' organizations for the handling of non-pool grain and the distribution of farm supplies such as is now carried on through our elevators."

"It is true that our offer was promptly rejected by the Manitoba pool board. We believe, however, that a careful study of the plan suggested will reveal that it is not without a great deal of merit. The reason for rejection was that amalgamation between the pool and the company is undesirable, but our suggestions involve nothing like amalgamation. They simply provide a plan for joint use and control of elevator facilities already owned by farmers for the handling of both pool and non-pool grain."

The pool, it was announced, had decided that "in our opinion the United Grain Growers Limited and the Manitoba Wheat Pool represent two systems of grain marketing so fundamentally different as to render amalgamation impossible."

Ask Embargo Again On Canadian Cattle

House of Lords Discusses Discontinuing Shipments From October 1 to March.

London.—Stressing the case of the Manchester Producer, as an argument in favor of an embargo on Canadian cattle, Lord Banbury and Lord Pembroke urged the re-imposition of the embargo, at least between October and March in the House of Lords.

The Manchester Producer was disabled in mid-Atlantic while bound from Halifax to Manchester and the cattle on board suffered greatly during the storms which struck the vessel.

Replying, Lord Haldane, under-secretary of state for agriculture, stated that the ministry of agriculture was prepared to take all reasonable precautions to prevent a recurrence of the Manchester Producer disaster.

Pond Again Sentenced
Jacksonville, Fla.—Charles Pond, financial wizard, was sentenced to serve one year at hard labor in the state penitentiary at Raftord by Judge James M. Foster in Criminal Court here. He was convicted of violating the Florida law relating to the conduct of business under a declaration of trust. Judge Foster denied Pond's motion for a new trial. Pond, who is now engaged in conducting a land syndicate, was given 90 days in which to present an appeal.

Goed to Jail for Rum Running
Portland, Ore.—Captain Robert Pamphlet, of the Canadian schooner *Pocahontas*, which was seized as a rum runner off the Washington coast in February, was sentenced in federal court to two years in penitentiary and fined \$5,000. Jacob Vollette, who was convicted along with Captain Pamphlet, was sentenced to two years and fined \$10,000.

Veteran G.P.R. Operator Dead
Ottawa.—David Robertson, aged 66, who flashed the first message across the Canadian Pacific Railway Company's coast-to-coast telegraph wire when it was originally constructed, dropped dead here. For a number of years he was chief operator for the C.P.R. here.

Spitzbergen Ready For Norge
Lundsgard.—Lieutenant Hiler, leader of the Amundsen-Ellsworth Polar expedition, received a message from Capt. Amundsen, at Spitzbergen, saying all preparations have been finished there for receiving the dirigible Norge, in which it is hoped to fly over the Pole.

Veterans Will Meet in Victoria
Victoria, B.C.—This year's Dominion convention of the Army and Navy Veterans Association will be held here September 19. It has been announced by the Victoria branch. This will be a week earlier than first planned.

W. N. U. 1622

Favors Limitation Of Armaments

U. S. Would Welcome Completion of Work of 1921 Conference Says Kellogg

New York.—United States policies on outstanding international issues were stated by Frank B. Kellogg, secretary of state, in an address at the annual luncheon of the Associated Press.

On the question of armament limitation, the secretary said the United States Government would "welcome an agreement which would complete the work begun in Washington at the 1921 conference."

Secretary Kellogg pledged in this connection that the delegates from the United States to the preliminary "limitation conference" in Geneva would "use their influence in favor of proposals which may be practical in their application and realizable in their development."

He reminded the audience, particularly the hundred Latin-American journalists present as guests of the Associated Press, that the true policy of this country contained "no desire for imperialism, acquisition of territory, political or economical domination."

Protests Against Delay In Inquiry

D. F. Kellner Wants Earlier Probe In Athabasca Valley

Edmonton.—Mr. Justice Beck will not hold an inquiry before next September into alleged corrupt practices in the federal election of Athabasca during the last Dominion election, so he is reported to have informed a delegation of the United Farmers of Alberta that waited upon him recently.

This was the information given to delegates who were present at the meeting in the city council chamber to form a provincial U.F.A. association for the return of the delegation, which was composed of C. Russell, C. Brumfit and R. Goddard.

A strong protest against this delay was voiced by D. F. Kellner, defeated Progressive candidate for Athabasca, who stated that many of the witnesses will be out of the country. If the probe is not held before September.

He has intimated steps will be taken to bring the matter before the Ottawa authorities.

Suggests Amendment Of Naturalization Act

Miss MacPhail Would Have Canadian Girls Marrying Aliens Retain British Citizenship

Ottawa.—Miss Agnes MacPhail proposes to move in the House of Commons that the Canadian girl who marries an alien and continues to reside in Canada shall not lose her British citizenship by the mere act of marriage. Miss MacPhail's proposal is that the "Naturalization Act" be amended to provide that a woman of British nationality residing in Canada should not lose or be deemed to lose this by her act of marriage with an alien, but that it should be open to her to make declaration of allegiance if she should so desire.

Miss MacPhail's resolution, although not limited thereto, will, on account of their number, give particular reference to marriages between Canadian girls and Americans.

Willington May Be Next Governor-General

Will At Least Receive Offer Canadian Press Informed

London.—The Canadian Press has been authoritatively informed that the Viscount Willington at least will receive the offer of the Governor-Generalship of Canada.

Lord Willington was on his way to China at the time. He was at the head of the Chinese indemnity fund committee which was going to China to arrange for this return by the British Government of the Boxer indemnity amounting to some £11,000,000.

Henry Ford Is a Free Trader
Detroit, Mich.—Henry Ford, Detroit industrial magnate, stated his belief that the industry of Ford City, Ont., would "run better" if there were no tariff whatever. Mr. Ford declared himself to be a free trader.

The magnate was interviewed on the Walkerville ferry as he was returning from an inspection trip of the Ford City plant.

Dangerous Floods In Arabia
London.—A Reuter's dispatch from Cairo, Egypt, reports disastrous floods in Southwestern Arabia. A traveller arriving from Yemen said the flood waters, piled up by cloudbursts at Yemen and Wadi Mar, near Lobdah, had washed away 700 homes.

British Alarmed By German-Soviet Pact

Believe Berlin Is Being Poised By Soviet Minister

London.—The British, who had viewed the negotiations for the Russian-German pact with complacency, now are becoming alarmed, not because they distrust the Germans, but because information has come to them which indicates that while the Germans are honest, they possibly are being fooled by Foreign Minister Tschicherin, who is regarded as the cleverest diplomat in Europe.

British diplomats are convinced that Russia is meditating an attack on Rumania, both to obtain the return of Bessarabia, which generally is admitted to be more Russian than Rumanian, and to damp down the discontent at home by what the Kremlin politicians hope will be a victorious foreign war. The Red army is reported to be getting restless and unruly, and the Soviet leaders feel that they must give it an occupation in order to render it innocuous.

Death Penalty To Remain

Move of Labor Party Is Defeated in British House of Commons

London.—The House of Commons in committee rejected by 269 to 123 the new official Labor clause of the army and air force annual bill, providing for the abolition of the death penalty in cases of cowardice and deserting while on active service.

The house also rejected, by a vote of 283 to 107 the Labor clause which would prohibit the use of troops in connection with trade disputes except when a proclamation declaring that a state of emergency existed was issued.

RESUME WORK OF CONSTRUCTION ON H. B. ROAD

Ottawa.—The fact that parliament has already appropriated one-twelfth of the total estimate of \$3,000,000 toward the completion of the Hudson's Bay Railway, has led to a start being made, already upon operations. One-twelfth of the estimate amounts to \$250,000, and at Le Pas, operations are now under way for putting the existing line in shape and for the additional construction which will be necessary.

When Hon. C. A. Dunning became minister of railways he spoke at Regina and declared that one of his main objectives was the completion of the Hudson's Bay Railway. An appropriation of three million dollars appears in the estimates this year, and with what has been voted already, the minister is in a position to go ahead with fairly extensive operations in anticipation that the whole route will be ratified by parliament.

The work of placing the existing line in shape and of continuing the construction will be carried forward under the direction of the Canadian National Railways. There is no doubt that the whole undertaking will be carried forward to completion and not in any leisurely manner but with all expedition possible.

Lord Allenby Leaves for Home

Lord Edmund Allenby, conqueror at Palestine, accompanied by Lady Allenby, is shown above with Commander E. Landy, leaving Canada on the Canadian Pacific liner *Montrose*. The famous soldier has just completed a tour of Canada during which he was received by the most prominent residents of almost every large city in the Dominion.

The "Bill of Bash" delivered addresses throughout the country telling of the conquest of the Holy Land and stressing the importance of the capture of Palestine in helping win the Great War.

MAY NOW EXTEND SEARCH LIMIT FOR RUM RUNNERS

Ottawa.—Extension of the limit of search to 30 or 35 miles from the United States shore is mentioned as a possibility in the correspondence between the British ambassador at Washington and the Governor-General of Canada. This correspondence was tabled in the House of Commons in reply to a question concerning seizure of the Canadian schooner *Pleasant* off Long Island, on October 19, 1924.

Sir, E. Howard wrote Baron Byng on October 16, 1924, concerning the seizure of the liquor laden schooner. One paragraph of his letter reads:

"It was pointed out by the assistant United States attorney that the *Pleasant* was captured 14 miles from the shore on evidence that she was reached by the motor boat K-1422 in less than one hour's run, and the United States attorney stated he believed that in the case of fast motor boats engaged in the liquor smuggling traffic, the limit of search might be as far out as 30 or 35 miles."

The file deals with the ownership of the *Pleasant* rather than with her capture, but a newspaper clipping is included showing that, following the seizure of the schooner, the United States Government was ordered on January 26 last by a judge in Brooklyn, N.Y.

The *Pleasant* was seized by the United States Government cutter *Seneca* with 440 cases of liquor aboard and an empty motor boat alongside.

Will Lead Liberals

Joseph T. Shaw of Calgary Chosen Chief of Party in Alberta

Edmonton.—Practically unanimously refusing a resolution made on the floor of the convention by Ed. F. Ryan, Calgary lawyer, that nomination of a provincial Liberal leader be not made until after the provincial general election, Alberta Liberals, in executive meeting gave enthusiastic endorsement to the only name placed in nomination, that of Joseph T. Shaw of Calgary.

The choice was made by executives representing every provincial constituency, and as explained by Hon. W. O. Buchanan, who took the chair at the opening of the convention, this form of procedure had been adopted following the system in Saskatchewan when a successor of Hon. G. A. Dunning was named.

One hundred and twenty-five delegates were present at the convention.

At the afternoon session, Joseph T. Shaw, newly elected leader, launched an attack upon the former Government of Alberta tending it of inaction.

Greated A Marquis

London.—A marquisate, in recognition of the completion of his work during his term of office as viceroy of India, was bestowed upon the Earl of Reading by King George. The earl, who is just home from India, went to Windsor to view the King, the marquisate being bestowed in the course of the audience.

Lord Allenby Leaves for Home

Canada should oppose United States competition with an adequate protective tariff. "I do not say build a tariff wall brick for brick with that of the United States," said Mr. Dickie. "But I say that we should build a tariff wall adequate to stop their goods from coming into Canada in competition with our own products."

Refuse To Legalize Betting

Bill Introduced in British House of Commons Is Defeated

London.—The House of Commons today rejected a bill intended to legalize betting and horse bookmaking, 175 to 94. The rejection of the bill was moved by Edwin Scrymgeour, prohibition member for Dundee.

The question of legalizing betting and putting a tax on it has been under consideration for a long time, and recently it was reported that Winston Churchill, chancellor of the exchequer, casting around for some new source of revenue to aid the budget, had lighted upon betting as the most fruitful possibility for a new tax.

The church people have been strongly opposed to such a measure, as well as several members of the cabinet, some of whom Mr. Churchill said to have won over to his side.

Details Of Chinese Massacre Revealed

Only Five of Cabinet Office Guard Allowed to Live

Shanghai.—Only five men out of 400 comprising the guard of the cabinet office escaped death at the hands of the Kuomintang troops before they evacuated Peking, says The North China Daily News.

The newspaper calls it a cold-blooded massacre. It says the extremists persuaded their commanders to destroy all the guard of the cabinet office, which fled on students during a demonstration last month. The men were taken on a road near the yellow temple and machine guns were opened upon them until only five escaped alive.

Cost Of Completing Hudson Bay Railway

Figures Given to House by Sir Henry Thornton

Ottawa.—The Hudson Bay Railway will cost \$2,000,000 to complete and a further \$4,250,000 to put into operation. This is the opinion of officers of the Canadian National Railways, transmitted through Sir Henry Thornton's office in reply to a question in the House of Commons, and tabled in that chamber.

Grading was completed some years ago, but by now it requires considerable repairs, was one of the notations on the file.

OPPOSITE VIEWS ARE AIRED IN BUDGET DEBATE

Ottawa.—Continuing the budget debate, Mr. Maclellan stated that the year's financial statement was noted for its announcement of a reduction in taxation and an increase in trade and an improvement in the Canadian National Railways.

Another feature of the budget, which will be popular, said Mr. Maclellan, was the return to penny postage. Canada was a pioneer in the experiment of penny postage, back in the days when Sir William Mulock was postmaster-general. The experiment had proved very profitable then, and Mr. Maclellan thought it very fitting that Canada should go back to the two-cent stamp.

In spite of all the smuggling which was said to be going on, Mr. Maclellan drew attention to the fact that there had been a considerable increase in the net sum collected on customs duties. There would be a certain amount of smuggling in any case, he thought, and the returns of the customs department showed a very satisfactory increase.

Mr. Maclellan supported the reduction in the tariff on motor cars. The near or Canadian prices were made to those in the United States the motor would be the property of the automobile industry in this country. This was due to the fact, he stated, that reduction in the price of cars would increase the number sold.

Mr. Dickie expressed the view that the government's course was being governed by the Progressive group. The speech from the throne had stated that the tariff board would be constituted for the consideration of tariff matters; yet the government had in its budget taken a step in the opposite direction.

Canada should oppose United States competition with an adequate protective tariff. "I do not say build a tariff wall brick for brick with that of the United States," said Mr. Dickie. "But I say that we should build a tariff wall adequate to stop their goods from coming into Canada in competition with our own products."

LABOR CLAUSE IS CHALLENGED IN BRITISH HOUSE

London.—Sir William Johnston Hicks, home secretary, in closing the debate in the House of Commons on the clause proposed by the Labor side of the house amending the army and air force bill by prohibiting the use of troops in connection with trade disputes except when a proclamation was issued, declaring that a state of emergency existed, alluded to S. E. Saklatvala, the Indian communist member for North Battersea.

"Of the honorable member (Saklatvala) any other person inside or outside of this house," said the Home Secretary, "thinks the time has come to challenge the right of this democratic government to maintain law and order, he will find the government not averse to taking up the challenge."

The home secretary's reference to a challenge was in connection with a speech made by Saklatvala in the house a week ago, when he stated that the army and navy were offered by the capitalist class and were used only in the interests of capitalists. "The only way," Saklatvala declared on that occasion, "is to break the law."

During the debate, Lieut.-Colonel Sir Alan Burgin, Conservative, produced a sheet of leaflets alleged to have been circulated with a view to undermining the loyalty of the troops. He proceeded to deprecate the Soviet state in words that were regarded by the Labor members as objectionable, and they protested. The speaker retorted that such sentimentality with regard to a state with which Britain's relations were friendly, were out of order.

Lieut.-Commander J. M. Kenworthy, Liberal, expressed a fear that "marching band" people would stampede the home secretary.

Eskimo Accused Of Murder

Edmonton Judge Leaving About June 1 To Preside Over Hearing

Edmonton.—Judge Dubuc, who has already had connection with the trials of Saklins in the Far North, expects to leave for Aklayk about June 1 to preside over a hearing resulting from another killing in the northern territories.

An Eskimo named Ikayewa will be the accused, having been apprehended by the Royal Canadian Mounted Police detachment, Two River in January, 1925, for the shooting of a native, Unukak, on Parry River in the summer of 1924.

Two lawyers, one for the prosecution and one for the defence, and the judge's personal secretary, also will make the trip.

Canadian Doctor Honored

Montreal.—Dr. D. M. Morrison has been awarded the Ramsay Memorial fellowship by the Research Council of Canada. Dr. Morrison is now carrying on research work with Sir Ernest Rutherford in the Cavendish Laboratory at Cambridge. He is a native of British Columbia, and a graduate in arts of the University of British Columbia.

King Awards Medal

London.—King George has awarded the bronze medal for gallantry for saving life at sea to the chief officer, the second and third officers, the engineer, wireless operator and two Chinese seamen of the steamer *Benvenoth* of Lark for the rescue of the crew of the schooner *Nancy Lee*, of St. John, N.B., on October 23, 1925.

Will Enter Politics

Mexico City.—All Roman Catholics urged actively to participate in Mexican politics to control presidential, congressional and municipal elections as an effective means to bring about religious freedom in Mexico. The advice is contained in a pastoral letter signed by all the archbishops and bishops of the country.

Sir Arthur Currie Re-elected

Montreal.—Sir Arthur Currie was re-elected president of the Last Post Fund at the annual meeting here. Possibilities of branches being formed beyond the borders of the Dominion were mentioned in the report of the secretary, Arthur H. D. Hall.

Probe Submarine Disaster

New London, Conn.—Three women dead and nine others injured, six of them seriously, a naval board of inquiry was at work here searching for the cause of the explosion which shattered the battery room of the submarine S-5.

Devil's Gate Dam, near Pasadena, California, has a 20-foot concrete road on the top.

Items of Local and General Interest

Mr. and Mrs. F. Wright arrived this morning from England.

Mrs. Mike Murphy was up from Macleod during the week, on a visit to friends.

Kelley says spring has surely arrived. The sap is running after the girls.

Mrs. Lornie left here by Saturday night's train for Scotland, where she will visit the old home.

Quite natural. The lighter a man's head, the higher he is able to carry it.

C. F. Jamieson, of Lethbridge, was a visitor to The Pass during the week.

Some actors are like eggs—they go upon the stage when they are no good for anything else.

An exchange remark: Straw hats will be much lighter this season. They had to use about ninety per cent of the country's supply for the straw votes.

Little Cora Rhodes sustained a severe injury to one of her eyes last week from a stone thrown by another child while at play. It is thought the eye may have to be removed.

A provisional agreement for the sale of the White Star line to abolish a shipping syndicate headed by the Furness-Withy Company, Limited, has been arranged in London.

While the Elks in a small town in Saskatchewan are staging a play entitled "Meet My Wife," the married element of the local here are considering another, entitled, "Take Her Away!"

A local lady was very much embarrassed recently when she took her little daughter into the bank with her, to hear the little tot remark after a few minutes: "Mother, lift me up so I can see the animals, too."

Rev. Wm. Burns arrived home yesterday from a speaking tour of the district on behalf of "Save the Forest Week." He spoke to the children in nearly every school in the district. This is carrying the campaign where it will finally do the most good—Fertile Free Press.

Friends of Miss Aileen Kepnis, L.A.B., were interested in the Edmonton Journal report of the spring show, which gave unstinted praise of her riding of "Glory," of the Bonnie Brae Riding Academy, who was awarded second, third and fourth prizes in the ring showing and first in the Clown Whistle contest.

A few days ago we had the pleasure of going over the new road grading west of Coleman, which will form part of the new interprovincial trunk highway. The new road will be one of the grandest scenic highways in Canada, and, in fact, it has been stated repeatedly that the scenery from certain points surpasses anything to be seen along the Banff-Windermere trail. Rising 350 feet above the old road at a point about a mile west of Carbondale, one gets a magnificent view of Old-Crow. Right at this point it is proposed to lay out a tourist campsite. From here one has a view of the majestic Seven Sisters, to the south west, and the Sentinel flats through which the Crows' Nest river winds its way below. To the east the gap between Turtle and Goat Mountains, with the northern edge of the Frank Slide, can be seen. This road will likely be opened to traffic towards the end of June. By it the distance between Coleman and the Lake will be considerably shortened, as well as getting away from at least two very dangerous railway crossings by following along north of the railway from Coleman to Sentinel.

Miss Lucy Hinds left for Edmonton by Tuesday's local.

Pincher Creek Golf Club will visit Blairmore on Sunday next.

Sergt. Duncan returned this morning from England, accompanied by his sister Mrs. Dyson.

Mrs. Frank Barringham is a patient at the local hospital and went under an operation a few days ago.

F. S. Kafoury, of the Blairmore Trading Company, was a business visitor to Regina during the week.

Don't think because a soft answer turns away wrath that it will work the same way with a book agent.

Battleships and troops are being commissioned around the North Pole to prevent invasion of explorers.

Two or three parties were discussing Mrs. McKinney a few days ago, when one remarked: "She looks eloquent!"

Getting one's hair bobbed is like buying a car. It isn't the original outlay so much as the upkeep which worries one.

C.E.R. Agent McKinnon, at Coleman depot, has been confined to his home through illness for the past couple of weeks.

Constable Cotterell, of the Medicine Hat detachment of the A.P.P., accompanied Mr. F. Wright to Blairmore from the Hat.

It's a great age we live in. While father rolls up his sleeves and goes to work, daughter rolls down her socks and goes to play.

The provincial government contemplates taking over the oil roads in the neighborhood of Okotoks. They shouldn't tackle anything so slippery.

At the regular convention of Livingstone Lodge, Knights of Pythias, on Friday last, W. Lord was installed as chancellor commander to succeed "Tiny" Garrison, resigned.

A sale of work, home cooking and flowers will be held by the St. Luke's W.A. in the Lodge Hall from 2 to 6 p.m. on the afternoon of Saturday, May the 29th. Tea will be served and an added attraction will be a white elephant stall, which will be well worth the patronage of those looking for bargains. There will be something for everyone at this stall. In the evening a whist drive and dance will be held.

A number of the small Ontario towns have abolished municipal income taxation, for various reasons. One is the higher general assessment tax rate of recent years; another the stiff Dominion tax; still another that many who should pay income tax escape the municipal levy altogether, and possibly the Dominion levy. The tax bears most heavily on salaried people, and those who truthfully declare their incomes. — Beamsville (Ont.) Express.

A jolly party took place at the residence of Mr. and Mrs. Ed. Royle, Dearborn Street, on Friday evening last, April 23rd, to celebrate the fourteenth birthday of their daughter, Nellie Royle. The invited guests being: Miss Agnes Kemp, Miss Alma Martin, Misses Lizias and Elsie Bamforth (Hillcrest), Miss Violet Rae, Miss Dolly Evans, Misses Beale and Alice Hamilton, Misses Edna and Elizabeth Christophers, Miss Ethel Smith, Miss Lena Fraser, Miss Lella Johnson, Masters Earl McLeod, James Kemp, Duncan Hamilton, Louis Lord, Tom Mackay, Jack McPhail, Bobby (toot, toot) Dickson, Willie Royle and Miss Nellie Royle. The fun commenced at 7 p.m. and was kept up until 11.45 p.m. Refreshments were served along with the singing, dancing and games, the party ending with the singing of God Save the King.

Mr. G. G. Coote, member for this riding, has been ill at Ottawa.

The C.P.R.-Government tree planting car will be at Cowley tomorrow.

An Indiana man has invented paper covers to be placed over automobiles when stored to exclude dust.

Messrs. Kelly and Naylor are busy these days assessing property within the town and school districts.

The Hanna Herald is offering two cash prizes of \$5.00 and \$2.50 for the best school essays on school fairs.

Macleod United church has decided to substantially increase the salary of their pastor, the Rev. W. H. Irwin.

He is a rate man who doesn't impose on himself more unnecessary taxes than the government imposes.

A man named John Bond sustained a broken neck by falling from a wagon near Okotoks last week and died instantly.

This spring, practically every incorporated town in the province of Alberta has undertaken a tree-planting campaign.

The Crows' Nest Pass Motors have disposed of about four carloads of new automobiles this season, chiefly the Studebaker and Chevrolet makes.

Joseph Tweed Shaw, former M.P. for Calgary West, an Independent, and defeated by Hon. R. B. Bennett, is the new Liberal leader for Alberta.

Last week was the first time in the history of the province of Alberta that school teachers have had to be ordered out of a public place because of misbehavior.

The first regular monthly competition of the ladies of the local golf club will be held on Saturday, May 1st. Play will begin any time after 2 p.m. All members are urged to come out. A draw will be posted in the club house for a hole and hole competition.

Dr. and Mrs. David Warnock, of Victoria, B.C., announce the engagement of their daughter, Leslie Martin, to Mr. Wilfred Arthur Roy Hadley, son of the late Mr. T. Hadley, of London, England, and Mrs. Hadley, of Victoria. The wedding will take place in June.

Now that the Falls at Lundbreck is becoming a popular week-end and holiday resort, some steps should be taken to safeguard the public. Between the falls and the new traffic bridge, on either side, are perpendicular and overhanging cliffs towering near a hundred feet from the pool and jagged rocks beneath. On Sunday last a small child playing near the edge of the cliff came very near falling over. It has been suggested that a fence rail placed at a distance of about ten feet from the edge would prevent possibility of an accident.

The political pot has begun to simmer and during the past week quite a number of aspirants for political honors have appeared. The Conservatives so far seem to be most active. The timber to be picked from locally includes Walter J. Fisher, James Burrows, C. F. Jamieson and J. L. Parker, while the Conservatives of Bellevue, at a meeting held a few nights ago, decided to advance the name of John Kerr, of Passburg. These and others will be considered at a grand rally to be held in Blairmore on Wednesday next, May the 5th. Labor has so far suggested the names of our present member, Mr. P. M. Christophers, and Hon. Alex. Ross. Liberal timber will include A. M. Denmore, of Lundbreck; A. M. Morrison, of Coleman, and possibly one or two from the northern end of the riding. It is considered altogether likely that the elections will take place on June the 14th.
